

PLASMA MACHINE

Cutting Range 3200 x 1700
Burr-free and smooth cutting feature between 0,2 - 10 mm thickness
All movement units have linear slide system
Smoke free cutting system by help of specially mounted fan
Feature that Works with DXF and NC set way files
Automatic torque height control
High mechanical precision: + 0,1 mm
Axis positioning speed: 30 met/min
Automatic NESTING software package
Windows based CNC unit
In ventilation field; special program for preparing cutting files of all parts
Fast and precise positioning through AC servo motors
Y axis: Synchronous double servo driven
X axis: single servo driven
High-tech plasma transformer that ensures extremely precise cutting and high speed cut-off
Spare parts have 2 years warranty except user error
